

I-70 at Adelaide Avenue Fuel Spill Update

- * Incident occurred on Monday, February 27, 2006
- * Area was contained and clean up began immediately
- * Traffic Signals had to be powered off due to gasoline in the conduits and pullboxes
- * Borings have found no fuel traveling under the roadway, but the sidewalk is contaminated
- * This clean up and all repair work is being charged to the trucking company

The timeline as of 4pm on March 17, 2006 is:

3/17/06 - The new boxes were installed. Power is turned by on. Signals to be turned back on when it is deemed safe to do so.

3/22/06 - The sidewalks are to be poured by Wednesday weather permitting..

3/23/06 - 8 feet of asphalt and guardrail will be removed on the south side of Adelaide and replaced by a MoDOT approved contractor
